

*romeo and juliet*

bradley robert jensen, costume designer

## general concept

A familiar world in which anything can be weaponized and the younger generation is consistently and systematically let down by the older, resulting in death of those too young and hollow memorials by the older is the stage on which the two hour traffic of Romeo and Juliet takes place. In this production the 20 roles are played by 6 show-stopping actors assisted by visible dressers and the theatre magic of quick-rigged costumes.

Festival 56, 2021
